Dear Sir,

I would like for this letter to be received as a form of a motion.

Attach is a copy of documentary evidence to support my writ off habeas corpus file in the above caption case number. Furthermore, Petitioner, has had problems ascertaining other documents from the United States Parole Commission and the Bureau of Prisons concerning factual data.

I have reviewed James Coleman's case. It appears that his sentence was re-computed once he was designated to the Bureau of Prisons. Based on the current sentence computation, the Commission will need to schedule him for a special reconsideration hearing. I have prepared a memorandum to the Commissioner requesting that this action be taken. A new Notice of Action will be issued ordering the new hearing. If you have any additional questions, please feel free to contact me.

Inmate Coleman is serving a parole violation on a 15 year sentence for Assault With Intent to Rape and consecutive to this an 18 month sentence for Prison Breach. On the first sentence he has a parole eligibility date at the Commission's Discretion, while the consecutive sentence warrants a parole eligibility date of 10/23/2002. Since on the current sentence he is eligible for parole on the commission's discretion, is it permissible that I request that he be placed on the May parole docket?
